## Hat-trick of awards for Fiscal team

WEALTH managers Fiscal Engineers have collected a major industry trophy for the third time.

Fiscal collected the Midlands title in the Citywire New Model Adviser Awards 2009.

Picking up the award for the third year in a row, managing director Shane Mullins said: "Following a difficult trading year, which many businesses have faced, it is a delight to win this award.

"Our commitment to deliver the right

things consistently, even when economic conditions are challenging, has singularly led to our winning this award on three occasions."

The firm has ten employees and has built an impressive portfolio of more than £100m under management, specialising in offering advice to high net worth families and trustees with more than £1m to invest or manage.

Fiscal won the Evening Post's 2008 Nottinghamshire Small Business of the Year award.
